

The **ACADEMY** for Radiology & Biomedical Imaging Research

Advancing Innovation in Imaging Science

The Academy for Radiology & Biomedical Imaging Research Distinguished Investigator Award

Nomination Worksheet

Deadline: March 29, 2019, 5 PM EST

Description:

Thank you for your interest in The Academy for Radiology & Biomedical Imaging Research's Distinguished Investigator Award. This award celebrates achievement excellence in the field of academic medical imaging research.

All nominees must meet the following eligibility criteria:

- Primary professional appointment in an academic department of radiology that is a member of the Academy's Academic Council (ARRAC)
- MD, DO, and/or PhD degrees
- Academic rank of at least Associate Professor or its equivalent
- Significant research contributions
- Sustained productivity, including at least 25 peer-reviewed scientific research publications in which the nominee is first author or senior author
- Demonstrated accomplishment as an Independent Investigator with a substantial ongoing research program (As of Friday, March 29, 2019, the nominee should have completed at least 6 cumulative years of funding as the Principal Investigator of major competitive extramural research grants.)

These criteria may be modified at the discretion of the Academy.

Instructions:

Nominations are due no later than **March 29, 2019**. Applications may be submitted by either the Chair, Vice-Chair, or Research Chair of a member academic Department of Radiology.

Please do not submit nominations if they do not meet the eligibility criteria for demonstrated accomplishment as an independent investigator with a substantial ongoing research program. Only list major peer-reviewed grants (e.g., R01s, R21s, etc.) from established competitive funding sources such as the National Institutes of Health (NIH), the National Science Foundation (NSF), and the Department of Defense (DoD). The nominee must be the Principal Investigator of record (the recipient of the indirect costs) on those grants.

Please do not list industry grants or internal institutional grants. Foundation grants may be listed if they are not new investigator awards and if they are similar in funding level and competitiveness to major NIH grants.

The eligibility criteria for this award includes the completion of at least 6 cumulative years of funding as a Principal Investigator (PI). This requirement must be achieved as of the closing date of nominations (March 29, 2019). Please do not include anticipated service as a PI extending beyond that date, as this does not meet the eligibility criteria.

Please save this form with the name of the nominee and the date and send it to etownley@acadrad.org along with the following attachments:

- PDF copy of NIH-style biosketch. This biosketch should be no longer than five pages.
- PDF copies of the 3 key papers referenced in the narrative. Please save these articles with the name of the nominee and the title of the article.

Nomination Worksheet

Deadline: March 29, 2019, 5 PM EST

NOMINATOR	
Full Name: (including middle names/initials and professional degrees, and in the way it should be listed on all award materials)	
Institution: (please write as it should be listed on award materials)	
Email Address:	
NOMINEE	
Full Name: (including middle names/initials and professional degrees, and in the way it should be listed on all award materials)	
Institution: (please write as it should be listed on award materials)	
Cell Phone Number:	
Email Address:	
Academic Rank of Nominee:	
Primary Departmental Appointment of Nominee:	
Nominee's Membership in Other Professional Societies:	

If selected for the award, nominees will be asked to provide additional information to the Academy.

Describe in no more than 100 words the most important scientific contributions of the nominee. The narrative should reference 3 key publications in which the nominee was first author or senior author.

In addition to the 3 key publications mentioned above, please provide a numbered list of at least 25 peer-reviewed scientific research publications in which the nominee was first author or senior author. List all authors of each publication, underlining the name of the nominee. Do not include case reports, non-research publications, or publications in which the nominee is not first or senior author. Please follow the format below.

- (1) Nominee, Name1, Name2, Name3, Name4. Title of paper. Journal Name, Year, Vol(num): page - page.
- (2) Nominee, Name1, Name2, Name3, Name4. Title of paper. Journal Name, Year, Vol(num): page - page.
- (3) Nominee, Name1, Name2, Name3, Name4. Title of paper. Journal Name, Year, Vol(num): page - page.

All nominees must have successfully completed at least 6 cumulative years of funding as the Principal Investigator of major competitive extramural research grants. These grants must come from competitive funding sources such as the NIH, the NSF, and the DoD. Please provide documentation below.

Grant 1	
Granting Agency:	
Project Name:	
Principal Investigator:	
Start and End Dates:	
Total Direct Funding	

Grant 2	
Granting Agency:	
Project Name:	
Principal Investigator:	
Start and End Dates:	
Total Direct Funding	

Grant 3	
Granting Agency:	
Project Name:	
Principal Investigator:	
Start and End Dates:	
Total Direct Funding	

(Add additional grants if applicable)
