March 25, 2024

Dear Academy Stakeholders,

We are pleased to present the collection and collation of data for the Academy's FY23 NIH Data Collection Project. The Academy leverages this data as a strong advocacy tool on behalf of our community. In addition, we appreciate that many members use this data for benchmarking their programs and advocating for their own departments.

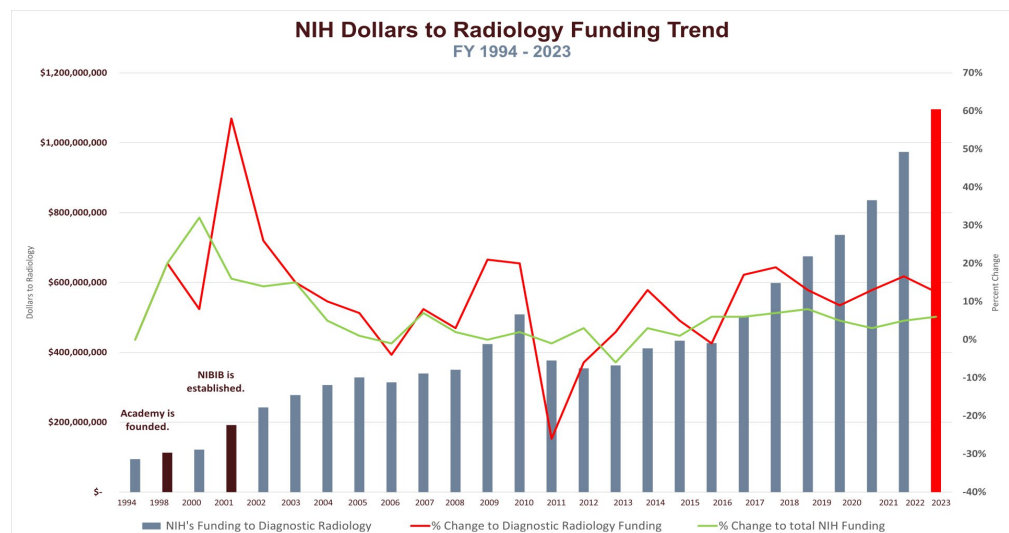

This year's data collection indicated an increase of 10.5% in FY23 over FY22, (\$1,075,752,584 VS. \$973,501,211), and a figure of over \$1 Billion for the first time in this project's history. The chart

below showcases this

significant amount of funding in comparison to prior years, in addition to a unique cross comparison with NIH's overall increases since this project's inception. You will note that even as NIH funding has remained flat or even trended downward, that increases to funding for imaging research has remained steady since 2011.

TOTALS FOR ENTIRE DATA COLLECTION - FY23

CONTACT PI on GRANT to PRIMARY	\$677,698,594
MPI on GRANT with AWARD to PRIMARY ORG	\$191,909,954
CONTACT PI on GRANT with AWARD to OTHER ORG	\$59,121,056
MPI on GRANT with AWARD to OTHER ORG	\$108,378,754
TOTAL WITHOUT ECOG-ACRIN	\$1,037,108,358
ECOG-ACRIN FUNDING	\$38,644,226
GRAND TOTAL	\$1,075,752,584

This year's collection was especially insightful as over 95% of our community of stakeholders self-reported their own data. We would like to thank each of the 51 academic radiology departments who took the time to collect and submit on behalf of their institution.

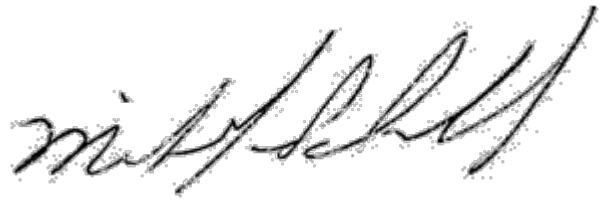

Should you have any questions regarding this year's project, please contact the Academy staff project lead Casey Cappelletti, ccappelletti@acadrad.org. [Further information can be found on the Academy's dedicated NIH Data Collection webpage](#). This page also contains the guidelines for this project's collection.

Thank you all again for your commitment to this annual effort and we look forward to engaging you all in our FY24 collection next fall.

Regards,

Ruth C. Carlos, MD, MS
Academy President

Mitchell D. Schnall, MD, PhD
Academy CIBR Chair
