

ACADEMY OF RADIOLOGY RESEARCH

Interagency Working Group on Medical Imaging National Science and Technology Council

[Summary IWGMI Listening Session: November 5, 2015](#)

1:00 p.m. to 3:00 p.m.
Building 31, C wing, 6th floor, Room #7
NIH Main Campus

Imaging Societies

Invited Presenters:

- [Renee L. Cruea, MPA, Executive Director
Academy of Radiology Research](#)
- [Richard L. Ehman, MD
Radiological Society of North America](#)
- [Mitchell D. Schnall, MD, PhD
American College of Radiology](#)
- [James Thrall, MD
International Society for Strategic Studies in Radiology](#)

The presentations covered a broad overview across agencies of current federal funding for imaging research, identified exciting areas of research that are ripe for multiagency collaboration/acceleration, and areas where agencies could work more closely together. Each presentation touched upon a wide range of topics, from imaging's role in precision medicine, deep learning, quantitative imaging, ACRIN, and other potentially-high impact areas of science.
