

Dr. Elizabeth Morris is Chief of the Breast Imaging Service at Memorial Sloan Kettering Cancer Center (MSKCC) and Professor of Radiology at Weill Cornell Medical College and the Larry Norton Endowed Chair. She is a fellow of the American College of Radiology (ACR), Society of Breast Imaging (SBI) and International Society of MR in Medicine (ISMRM). She currently serves as President of the SBI.

Dr. Morris graduated summa cum laude from the University of California Davis and received her medical degree from the University of California, San Francisco (UCSF). She completed her residency at Cornell University Medical College and breast imaging fellow ship at MSKCC.

Her research focus is on how best to use newer techniques such as MRI for early breast cancer detection and to improve the workup of breast lesions. In collaboration with her colleagues, she has written over 130 papers, chapters, and books about breast disease with an emphasis on the use of MRI. She has lectured widely both nationally and internationally at over 300 conferences. Currently, she chairs the MR section of the ACR BIRADS[®] Lexicon. She has authored a book "Breast MRI: Diagnosis & Intervention." Her recent research efforts have involved looking at imaging biomarkers to assess risk and treatment response.
