

Academy Leadership Research Roundtable
Hall of States, 444 N. Capitol Street, NW
Outside meeting rooms 285/233-35
8:00am-12noon

Goal: to create a better understanding of mutual worlds and how academia, industry and government agencies could work more effectively together, beyond commercial transactions to leverage one another and be more impactful.

Attendees: academia, society and industry leadership, representatives from government agencies

Agenda:

7:00am-8:00am Breakfast

8:00am Welcome Remarks
Academy President Hedi Hricak, MD, PhD, (Memorial Sloan Kettering)
CIBR Chair Carolyn Meltzer, MD, (Emory University)

Discussion Items:

1. Academy Update on the Diagnostic Cockpit Initiative (DxCP) <http://www.acadrad.org/dxcp/>
Mitch Schnall, MD, PhD, (University of Pennsylvania) and the Task Force Members
 2. How can knowledge between academia and industry be shared compliantly and within the legal restrictions?
Carolyn Meltzer, MD, (Emory University) & Jacob Stolk, PhD, (GE Global Healthcare)
 - Established ethical rules that prevent academicians from serving on advisory boards with private industry representative and equity partners. Bram feels that industry is not as aware of this restriction as they should be. Carolyn agrees that these opportunities for substantive discussions are rare.
 - Invite a representative from MITA and or AAMC COI to frame and guide this discussion.
 - Discuss how can we ethically promote knowledge within an academic institution's faculty/leadership/staff about technology advances in industry
 - Create an Academy CIBR position statement
 3. Data Ownership and Data Access AI/ML, Ethics and compliance issues between academic and industry.
Tessa Sundaram Cook, MD PhD, University of Pennsylvania
- 12:00-1:00pm Lunch Served/Networking
- 12:30-4:00pm Academy scheduled Congressional visits (all personalized)
