**Final NIH Funding for FY2022  
= \$44.9 Billion for the NIH**

**Academy ask for FY2023  
= \$49 Billion for the NIH**

## The Academy

The Academy is an advocacy organization committed to advancing research in medical imaging to promote the health and well-being of patients. We advocate for a sustainable medical imaging research.

## Diagnostic Radiology

Imaging is a diagnostic tool that can help us better understand biological systems and develop treatments that benefit patients.

**\$691 million vs. \$598 million**

- The total amount of NIH dollars going to diagnostic radiology **increased over 15%** in FY2019 as compared to FY2018 resulting in new tools and technologies to help improve patient outcomes.

## NIH funding results in ...

- Breakthroughs to overcome biomedical challenges.
- **Improved patient outcomes** across a myriad of diseases and disorders.
- The creation of over **552,444 jobs** and over **\$94.18 billion** of economic activity.<sup>5</sup>

**Federal funding for diagnostic radiology supports research like...**

### X-Ray Induced Acoustic Computed Tomography

- Improving x-ray to achieve better images with less radiation.
- Portable to reach patients in underserved communities.

### Medical Imaging & Data Resource Center

- This database uses artificial intelligence and machine learning to help diagnose, monitor, and predict COVID-19 infections.
- Over 120,000 imaging studies collected to date, nearly 30,000 available to researchers.<sup>4</sup>
